## A Message from the Editor

Hi everyone!

I hope everyone is busy getting ready for Grandy Camp. It's sure to be a blast. Getting to see so many old friends and new friends, that we haven't seen since last year! With Grandy Camp, the fun has only just begun because in the summer we have Installations, Supreme Assembly and Grand Assembly. I hope everyone is looking forward to these events. I know I am. I can't wait for all the fun we are going to have together. I hope you enjoy catching up with all our Grand Journalists and their Assemblies just in time for all the fun.

Hugs,  
Emily

Emily Beaudoin Grand Editor  
Grand Representative to Washington/Idaho and Ohio

## Hamilton Assembly #1

Hamilton Assembly # 1 has been very busy since before Christmas. We have done a catering for Wellington Square Lodge every month. We went to Niagara Falls for our annual trip in January, we always have a

*Continued on page 2*

## Toronto Assembly # 2

We had a great time with Rebecca's "Nightmare before Christmas", but like all dreams, we had to wake up, though I'm sure we will remember this 'nightmare' for a while. But something that helped us to 'wake up' from the 'nightmare' easier is when we saw all the love in the air with Lorraine Ball and her ladybug (love bug) term, including the Photo Album as her Symbol, a Daisy as her flower, her colours as Baby Blue and Baby Pink, her Motto: "Live like you are on the bottom even if you are on the top" said by Kevin Jonas Sr., and last but not least her Charity as m.powerment by marc cosmetics. The Installation was great and we had an amazing turnout with delicious food and we all had a great time and are going to fulfill out new stations with pride.

Since Lorraine was Installed as Worthy Advisor, we have done quite a lot of fun stuff already in and out of the Assembly. From cookie decorating to tubing and a PJ night, I'd say we've been doing pretty well. Our Birthday Night and Majority Member Celebration Night went very well, where the girls gave the Majority members a presentation about the lessons of the bow, and later on the Majority girls gave us a performance of a remake of "My Favourite Things" which had all of us laughing. And how can I forget SHB? Sweet Heart's Ball was a whole lot of fun and I know that for sure everyone from Toronto had a great time, though we were all tired and sore the next day. We also attended a Toronto Marlies vs. Hamilton Bulldogs hockey game with a few of the girls from Hamilton. Some of our upcoming events include a Church Service, a Pasta Dinner, Meagan's Walk, and other awesome stuff that our Toronto girls know how to make happen.

## INSIDE THIS ISSUE

1	Message from the Editor, Toronto Assembly #2
2	Hamilton Assembly #1, Primrose Assembly #8, Faith Assembly #14
3	Greetings from Mom and Dad Little / Future!
4	Greetings from Mum Luanne

great time every time we go. We had another Initiation right before our Installation in January. We held our Installation on the 23rd of January where Melissa Mastroianni went in as Worthy Advisor for her 6th and final term with Raggedy Ann still as her mascot. It went very well and she is enjoying her term very much. We held a spaghetti dinner in February to raise money for City Kidz which is her charity for the term again. It went very well. Hamilton Assembly # 1 is going to be very busy as we have three caterings this week and our Mother's Day tea is on May 16th

### **Faith Assembly #14**

Wow! The time has gone by so quickly since the last edition. With a new term and a new WA we are ready to have fun. Starting the term off with an installation, making Kyria Adair-Barchuck WA. Kyria has a lot of fun things planned for her term. For a fundraiser we had the ham supper. Which raised a lot of money and the girls all had fun. Some things Kyria had planned were sparkle night and PJ night. They both went perfectly and we all had a lot of fun. The Demolay had invited us to their dance some girls attended and had a blast. Another event we had was our Birthday meeting, the girls really enjoyed that. One of our latest events was our bowling night with the DeMolay. The ritual committee and had loads of fun with Faith Assembly # 14 and Belle Assembly # 17, as we had our school of instruction We learned a lot and it was nice to see Belle Assembly. Our upcoming fundraising is pasta and epicure spices. We are very excited about Kyria's upcoming plans for the term. Our Assembly is having the GWA visit May 17 we will also be honouring our mothers this meeting. We hope to see people there. We hope everybody else is having as much fun as us! .

Love always  
Morgan Lackey

### **Primrose Assembly #8**

Hullo Everyone,  
'Tis I Danielle.

Since I last submitted an article for Rainbow Treasures Primrose #8 has been busy. We began the year with Noah and his Ark setting sail for Canada. And while they were boarding the beavers and moose, those crazy Canucks started a mutiny and the Canadian crew took over the whole ark. And that meant a new term began. Meagan Wellon was installed as Worthy Advisor with a patriotic theme of Canada. So far, major events that happened have been Installation, an awesome prospect party and our annual church service. Another thing that happened was seeing me as acting Worthy Advisor when Meagan left Canada to go to Europe during the March break. It was a "different" experience but good practice for me. Most of our girls were excited to attend the annual DeMolay Sweetheart's Ball. Our Assembly was happy to see Leslie LaRue and Emily Leutri as Chapter Sweethearts and also Lauren Witterick as Provincial Sweetheart. It was pretty awesome!

As I write this another thing that is happening is our 62nd birthday. So Happy Birthday Primrose Assembly – 62 years of stellar bossness. Our Assembly always has fun events, whether it's a meeting or a fun event. So in conclusion, Primrose is really rad. 'Nough said. :)

Danielle Witterick.

## GREETINGS FROM MOM & DAD LITTLE!

Oh, my gosh, it's almost time for Grandy Camp!

First, I guess, everyone had better air out their sleeping bags - and this sure is a good day for that! We will be lucky if weather is this great for all of our happy campers going to Camp Tawingo! Next, don't forget the bug repellent and sun block!

I'm sure that you can hardly wait to see all of your Rainbow friends and family again; it seems so long since we have all been together. Even though you see a few from other Assemblies at one Installation and then some others at the next one, it is always so great to have the time to just hang out and catch up on everything that everyone has been doing since we were last together. Remember, the planning is half the fun so text your friends and share your excitement!

We had such a GREAT time last year and we have so many special memories of our experiences at Tawingo! The Chapel in the woods where we have our Church Service; that is sooo beautiful; I like to close my eyes and just drift back there, I can feel that little bit of mist of the early morning on my face.....wait a minute, is that a leak in the roof?

Well, I guess I had better stop day dreaming and get back to work here! Remember, if it's the long weekend in May, you must be at Grandy Camp – HAVE FUN!

In Rainbow love and service,

Mom & Dad Little.

## The Future!

### Cassandra

Where do I see myself in the future? I get asked this question a lot, only with different words sometimes, like "what do you want to do in the future?" But to tell you the truth, I have no idea where I'll be in the future. Maybe I will be an Olympic gold medalist, or a movie star. Maybe a famous doctor who has found a cure to devastating diseases, a grade school teacher, an actress, a painter, a Broadway dancer, maybe even a super hero! The list goes on and on, who knows what I will be! I believe that I, and everyone else that has an open mind can do whatever they want to when they grow up. Now, if say you had a magic crystal ball that can see into the future, and you asked me if I wanted to see, what would I say? I would probably say no. I want my future to be a big surprise to me. If I knew what was going to happen next, then I'd have nothing to look forward to. It's like being asked if you'd like the chance to be perfect. If you were perfect, then you'd have no point of goals in life, nothing to try and be better at. Life would be boring if I said yes to look into that crystal ball. That is why I'd say no.

### Allyson

If you had a magical crystal ball I would totally look to see if in the future we find that unicorns are real! In the future I see myself with a pet dragon and I'm going to name my pet dragon Fluffee and we are going to live in a house made of popcorn.

### Danielle

For this edition of Rainbow Treasures, we were asked, "where you see yourself in the future and if you had a magic crystal ball would you want to see your future?" Well in the future I don't know where I see myself. I am always indecisive about picking career paths. I might choose something to do with my hobbies though. Like photography, art and various other things. Anything creative will do nicely. But I would like to see myself doing something I love.

### Morgan

In the future I see myself still in school. I see myself in school trying to get a degree for either being a lawyer or something to do with law. If you had a magic crystal ball I wouldn't want to see into it because I believe everything happens for a reason. I wouldn't want to see my future and do something to change it. I want it to just happen the way it's supposed to.

## **A FEW WORDS FROM MUM LUANNE!**

Happy spring greetings to everyone! The fresh smell of new growth is in the air and in Ottawa, tulips are blooming everywhere.

For this issue, Emily has asked us where we see ourselves in the future and also, if she had a crystal ball, would we even want to see ourselves in the future. In the immediate future I see myself continuing to work with Rainbow as we all contribute to making it a vibrant and growing organization in Canada and around the world. However, I have to say that if Emily had a crystal ball, I would not want to see my future. I think that part of planning, and working is to do your best to see how things turn out. If we had crystal balls to show us the end result, why would we even try?

Safe travels to everyone on their way to Grandy Camp. My fingers are crossed for good weather!!!

In Rainbow Love,

Mum Luanne
